Hyperinflation Hedge

○ What did money mean to your *grandparents*?

● What does money mean to you?

○ What will money mean to your *children & grandchildren*?

What would money look like if it were perfect?

Neutral

USD Stablecoins bring economic accessibility to people, but increase instead of decrease dependency on nation states.

Meritocratic

Money today has tremendous economics of scale. How can money enable economics of merit?

Value-Preserving

Argentina had an inflation rate of 280%.

Fair

How can we make money fair for everyone?

Debt-Free

The debt of the US government grows by \$6.4 billion each day. Potential liability on the US-Dollar increases.

Stable

How can we achieve stability in a currency without backing it by real-world assets?

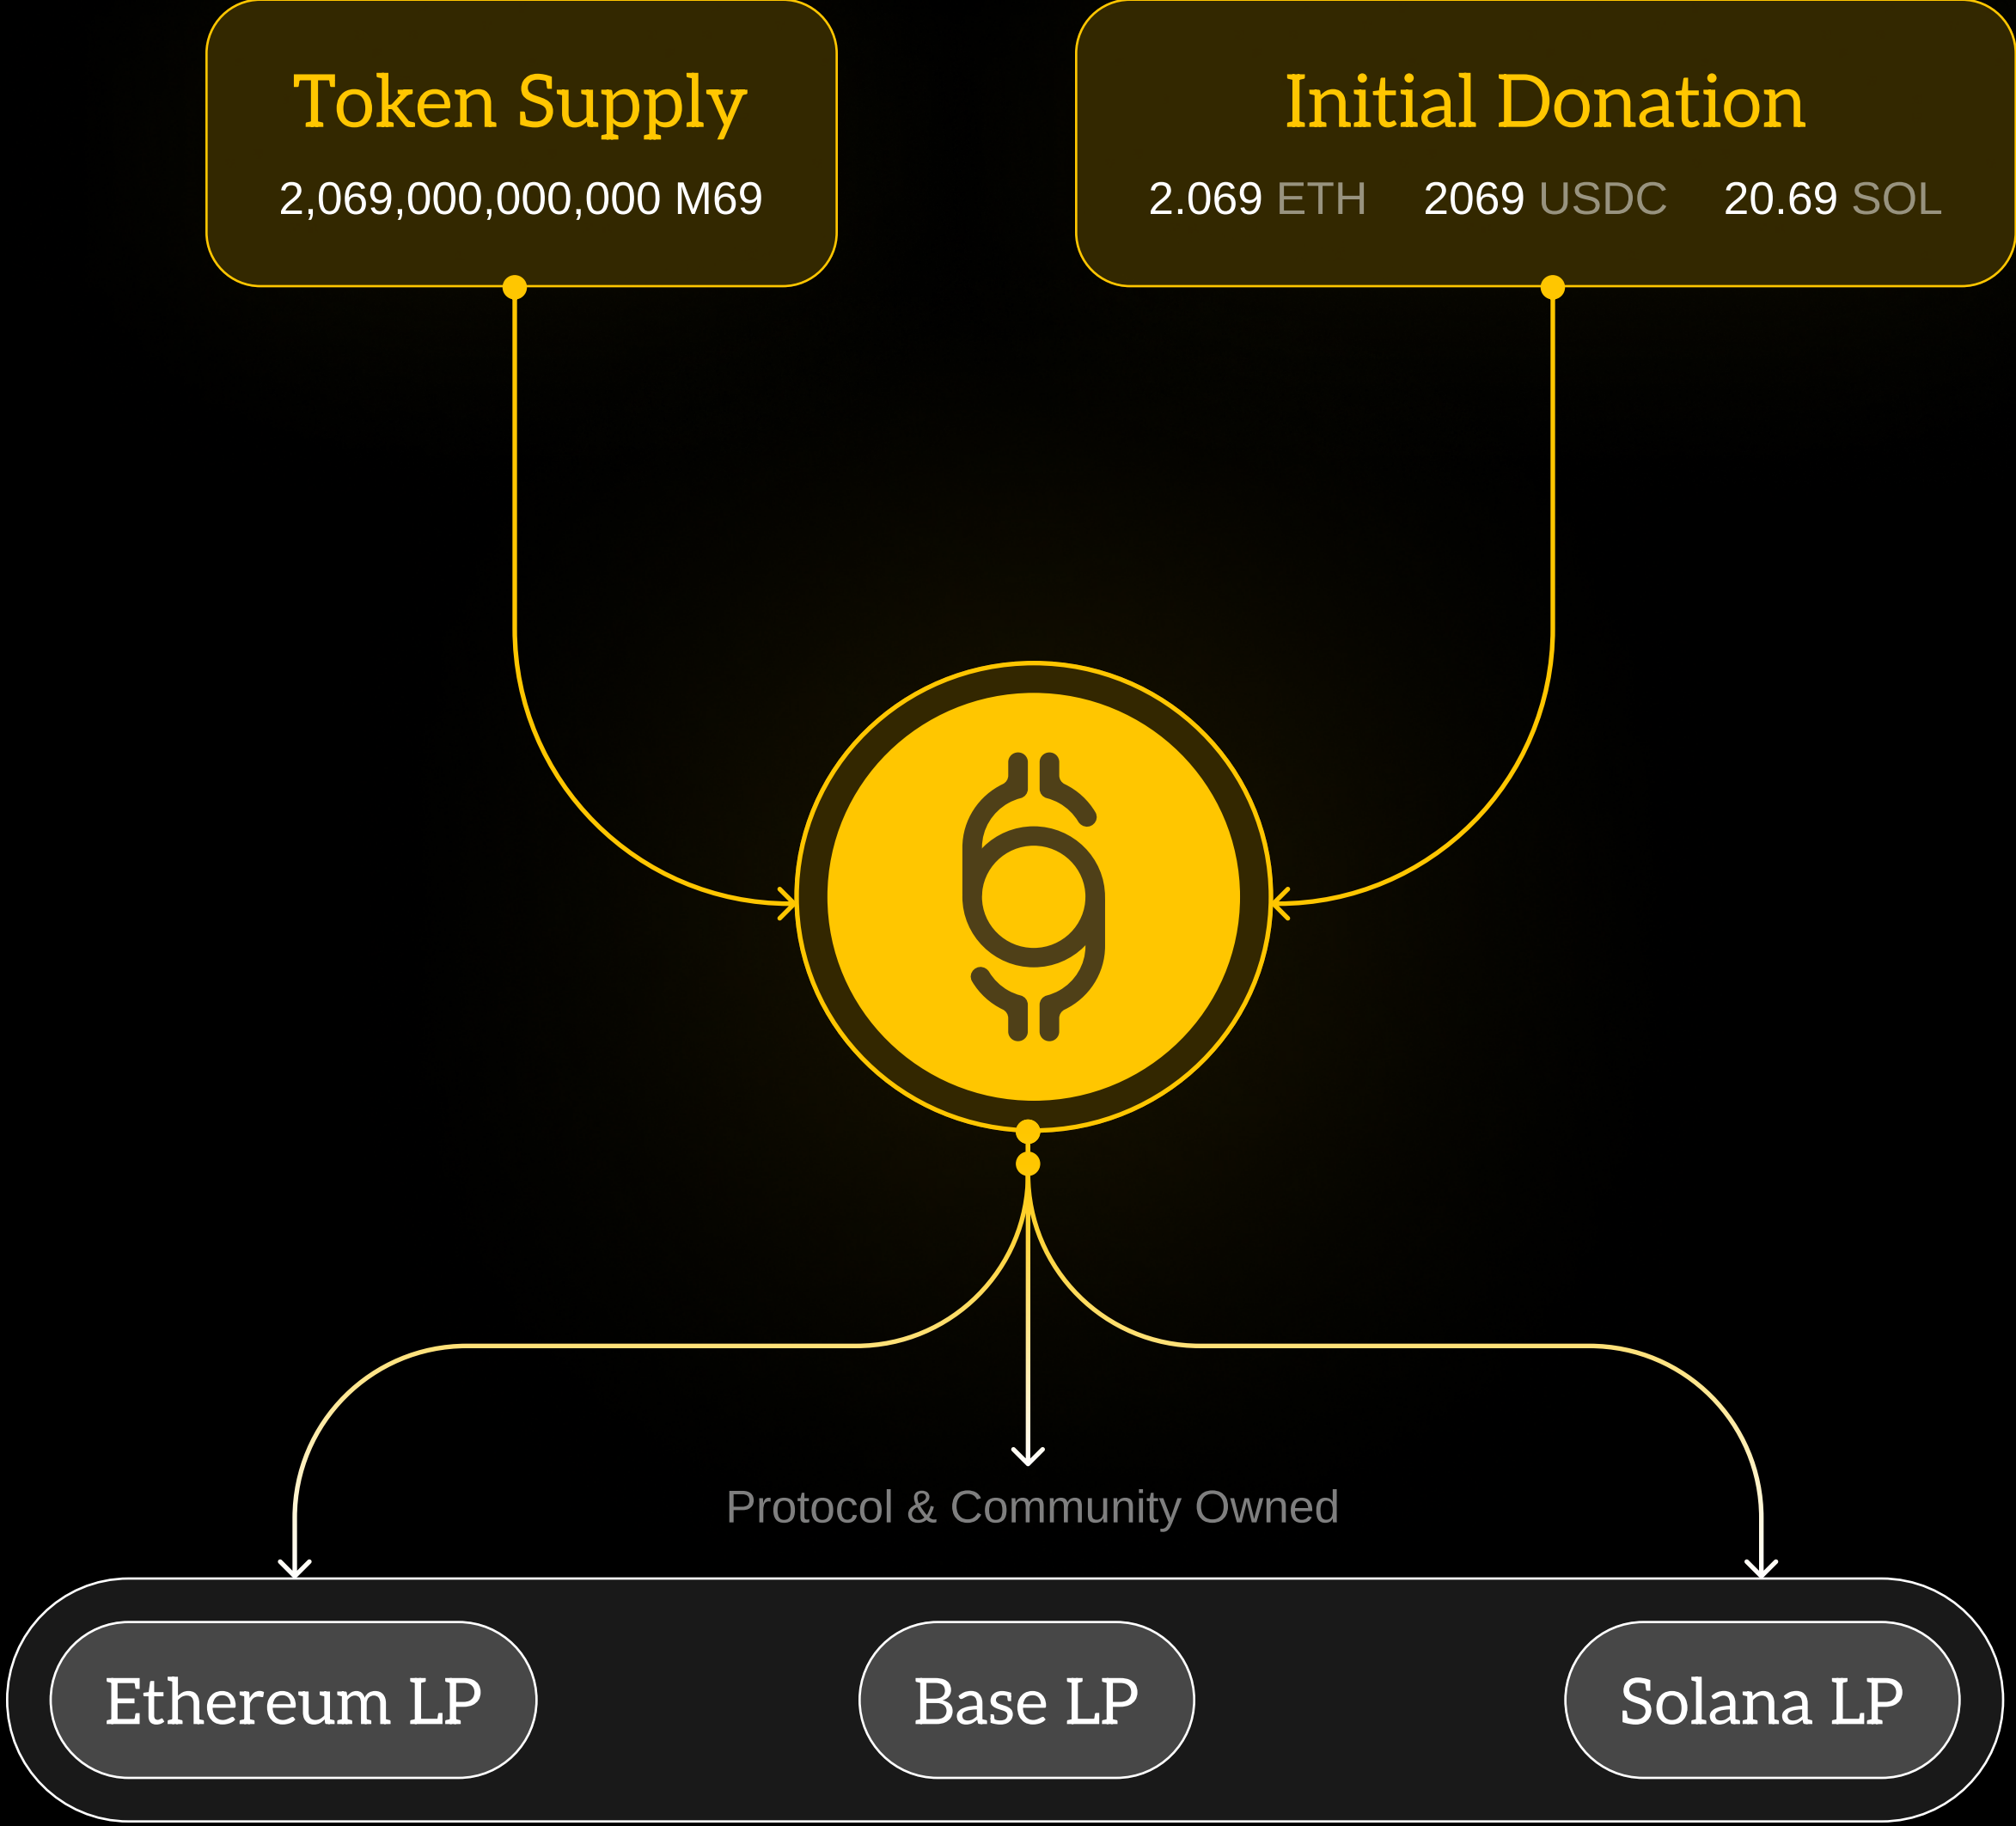

Long-Lasting

My grandparents experienced 4 currencies rise and fall. How can we create money that can stand the test of time?

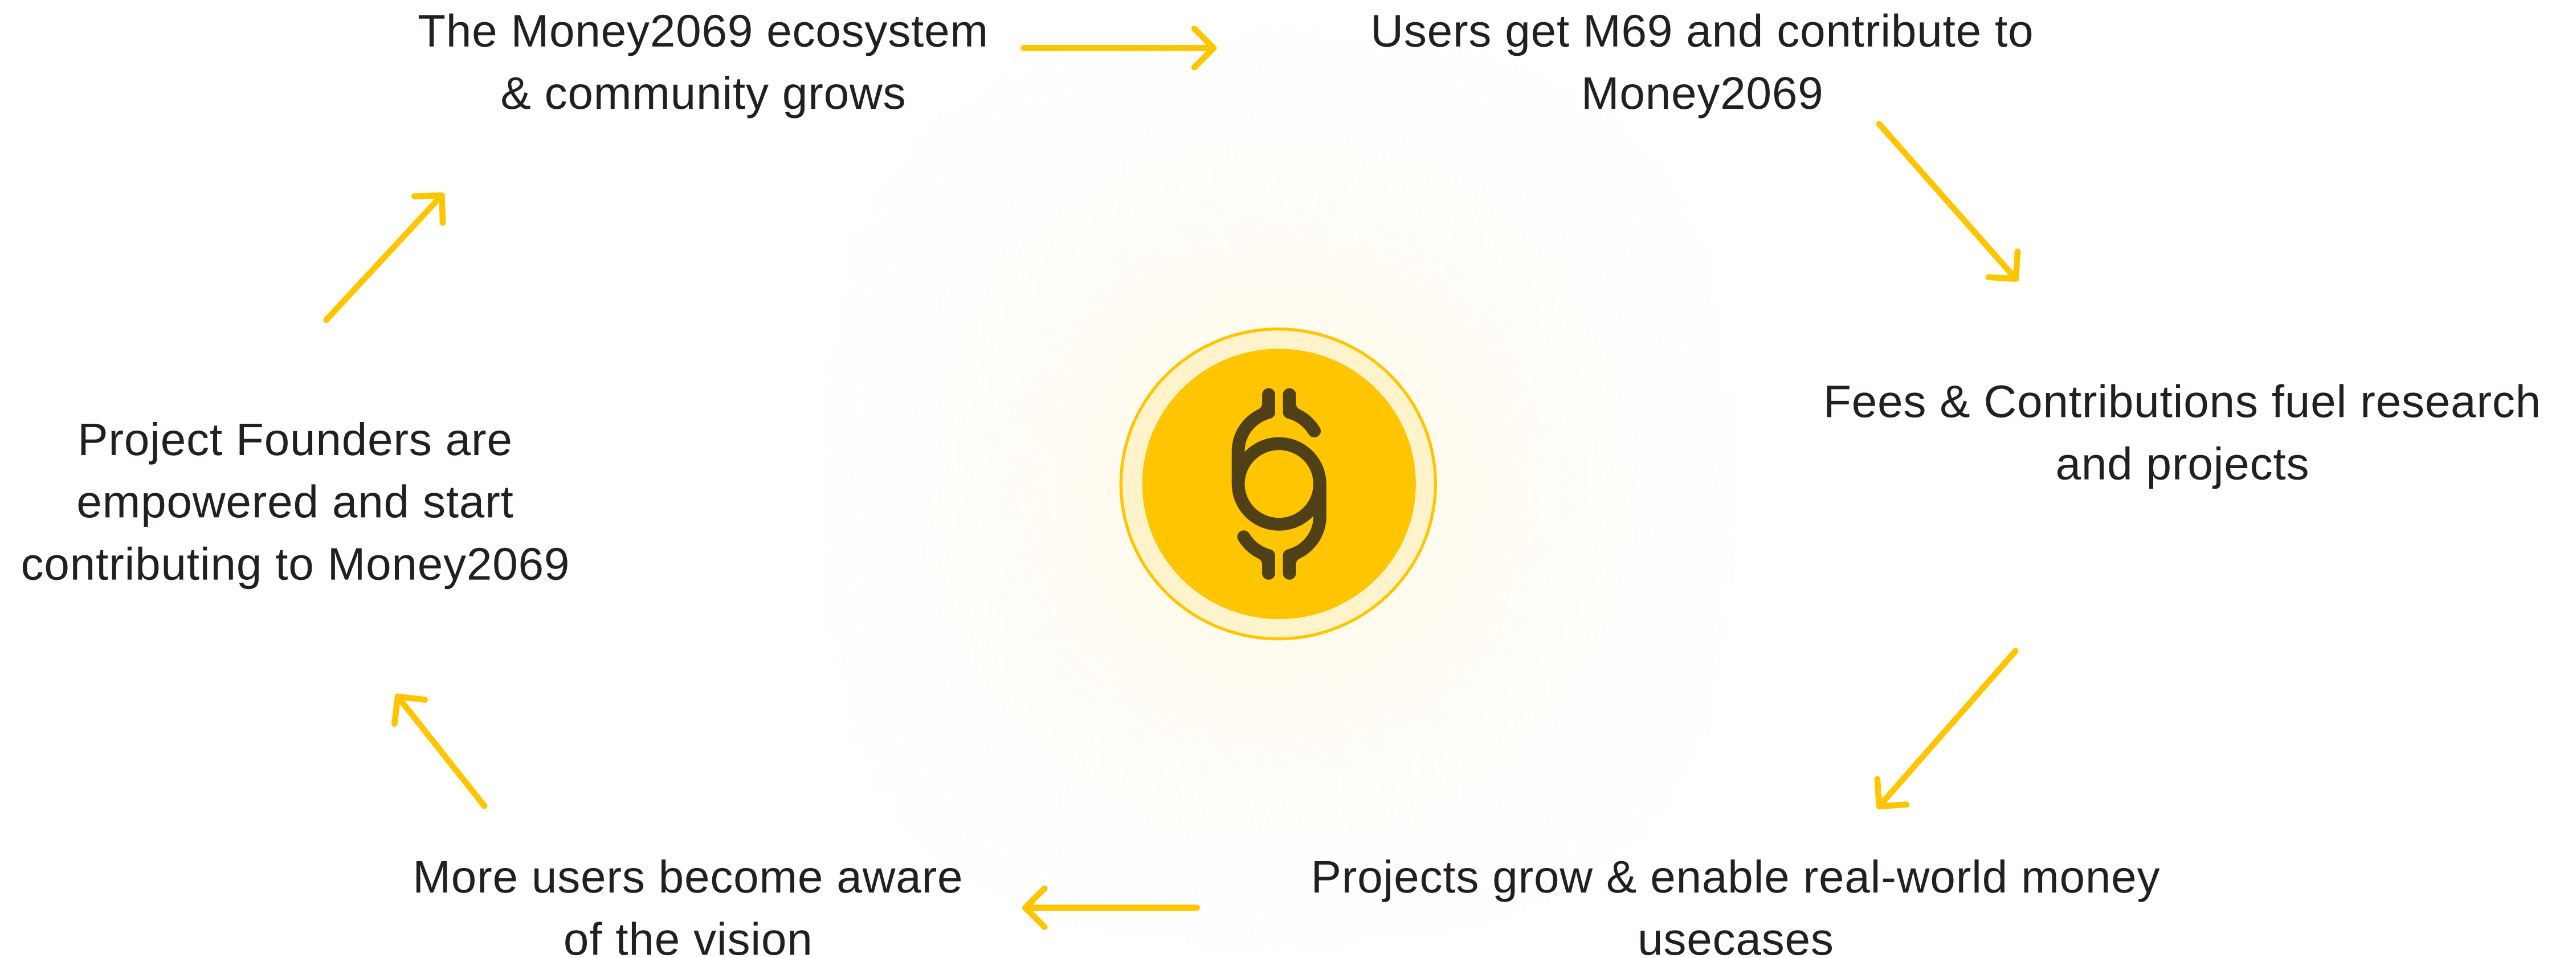

Global, yet Local

Which communities can bootstrap a new currency system?
Entrenched in a global system, but executed locally.
